DETAILED ACTION

1. Claims 1-16 are pending in this office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1,3-6,11-13,15,16 are rejected under 35 U.S.C. 102(e) as being unpatentable over McBride, Pat. No. 6,405,347.

Regarding claim 1: McBride teaches a method comprising:

grouping timing paths that share common characteristics (col. 8, lines 28-42); creating a list file containing the timing paths (col. 4, lines 59-67);

searching a timing report for timing paths that match the timing paths in the list file (col. 2, lines 33-45);

generating a first summary report on the timing paths in the input list, the first summary report listing the status of the timing paths (Figure 1, at least box 26); and determining whether there are new timing path(s) not found in the input list (col. 17, lines 37-52 using repeating evaluated function).

Regarding claims 3-6: These claims teach the well-known method to the claim 1 and rejected in the similar manner.

Regarding claims 11-13,15,16: These claims teach the well-known method to the claim 11 and rejected in the similar manner.

Art Unit: 2825

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7-9 are rejected under 35 U.S.C. 102(b) as being unpatentable over Arnold et al., Pat. No. 6,099,584.

Regarding claim 7: Arnold teaches a computer program comprising:

computer program code for reading in a list file containing unique timing paths grouped from a plurality of timing paths (col. 1, lines 18-32);

computer program code for reading in timing paths stored in the timing report file; computer program code for extracting information from the timing paths (col. 2, lines 51-61); and

computer program code for comparing the information to the timing paths contained in the list file (col. 2, lines 62-67).

Regarding claims 8-9: These claims teach the well-known method to the claim 7 and rejected in the similar manner.

Allowable Subject Matter

4. Claims 2,10,14 are objected to as being dependent upon a rejected base claims, but would be allowable if rewritten in independent form including all of the limitations of the base claims and any intervening claims. The reason for allowance is that the prior art of record fails to teach the combination of dependent claims and all other features of independent claims respectively.

CONTACT INFORMATION

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan Do whose telephone number is 703-305-2362.
